Request for Temporary Power Release Prior to Certificate of Occupancy

(“Pre Power” is required to conduct a final inspection)

Date: _____

Re: Permit Number: _____ Power Company _____

Project Name: _____

Job Address: _____

Although a final inspection has not been conducted, and a Certificate of Occupancy has not been issued, we request that the Hardee County Building Department (HCBD) authorize the appropriate utility company to energize the electrical service and equipment at the above referenced address.

The only reasons we are requesting electricity to be turned on is to enable us to test the electrical system and components and to allow these systems to be inspected in an energized state by the HCBD. We agree that this structure **will not be used or occupied** until a Certificate of Occupancy has been issued by the HCBD.

We understand and agree that if the HCBD should hereafter find that the structure has been used or occupied, before a Certificate of Occupancy has been issued, the HCBD has a unilateral right to direct that the electricity be turned off without notice. Furthermore, we understand and agree to expressly assume all risk of injury and damage to all persons, including ourselves, and all property, without regard to ownership, which may result from the HCBD authorizing the appropriate utility company to turn on the electricity for the structure or from exercising the right to direct that the electricity be turned off as set forth herein. We agree that the HCBD will not be responsible for any such damages or costs.

In further consideration therefore, we agree to jointly or individually fully indemnify and hold harmless the HCBD for any claims, judgments, settlements or awards and for all costs and attorney’s fees regarding any claims by parties that have been damaged by the authorization and commencement of electrical service by the appropriate utility company to the structure or the exercising by the HCBD of its right to have the electricity turned off as set forth herein.
